

TECHNICAL DATA SHEET

Product Name: Oven & Grill Cleaner

Item Number: H111

DESCRIPTION: This product is a heavy duty grease and carbon remover for the fastest and most economical oven maintenance. It is an excellent degreaser for many other kitchen chores as well. Oven surfaces that are encrusted with grease, oils, fats and carbonized food materials are less efficient as heat conductors. Heavy build-up of soils can interfere with the uniform radiation of heat, causing hot spots to develop. This can cause the oven to use more energy to overcome the effects of this insulation layer. Foods cook more evenly when this layer is removed. This oven and grill cleaning compound penetrates through the layers to dissolve and emulsify them. **NOTE:** This product is not intended for use on aluminum, magnesium, zinc or other soft metals. Do not apply to painted surfaces. Protect floors and surrounding surfaces from contact to avoid removing finish. Promptly clean off any overspray or dripping from floors.

Where to Use: Oven racks, grills, barbecue grills, broiler pans, smokers, deep fryers, and exhaust vents can be restored to a clean appearance and optimum performance level with regular cleaning and maintenance.

DIRECTIONS: Do not dilute; use as received. Apply to surface by brushing, spraying or immersing. Allow surface to remain wet for 20 minutes. Agitate surface with a brush or scrubbing pad. Wipe away soils with a sponge or paper towels. Repeat application on heavily soiled areas. Wash cleaned surfaces with dish washing detergent and water. Rinse with potable water. Reheat oven for 10 minutes to remove all odors.

WARNING: Eye and skin irritant. Contains sodium hydroxide, butyl cellosolve, sodium metasilicate and anionic surfactants. Avoid contact with skin and eyes. If eye contact occurs, flush with water for 15 minutes. Get prompt medical attention. If skin contact occurs, remove contaminated clothing. Wash with soap and warm water, neutralize with vinegar, rinse with water. If irritation persists, consult a physician. Do not take internally. If swallowed, drink large quantities of water. Do not induce vomiting. Contact physician immediately. **KEEP OUT OF REACH OF CHILDREN.**

Container Disposal: Triple rinse container and discard according to local regulations. Do not contaminate water, food, or feed by open dumping of contents.

Spill Or Leakage Procedures: Contain spill and neutralize with a mild acid. Absorb on inert substance for disposal.

Product Specifications:

Color: Purple

Odor: Butyl

pH: 13 - 14

Flash Point: None
