

TECHNICAL DATA SHEET

Product Name: ALBRITE

Item Number: H191

Description: Albrite is a concentrated automatic dish washing detergent, with multi-purpose water conditioning agents and corrosion inhibitors. The combination cleans the dirtiest of dishes, dried egg yolk and baked on cheese etc. It destains tea and coffee cups, promotes machine skimming action, prevents lime and scale build-up in wash arms, spray jets, racks and chains, and it does it all safely, without corroding or pitting delicate machine parts. Albrite has a unique blend of wetting agents and potassium based ingredients. It prevents the formation of foam and thereby helps to maximize and maintain wash pressure throughout the wash cycle. Albrite is excellent for dish washing machines and glass washers.

Directions: Automatically dispense Albrite into commercial dish machine. Titrate to a level of 100 to 150ppm of alkalinity.

CAUTION: Eye & Skin irritant. Avoid contact with skin and eyes. If eye contact occurs, flush with water for 15 minutes. If irritation persists, consult a physician. If skin contact occurs, remove contaminated clothing. Wash with soap and warm water. If irritation persists, consult a physician. Do not take internally. If swallowed, give 1 to 2 glasses of water and call a physician. **KEEP OUT OF REACH OF CHILDREN.**

Product Specifications:

Classification: Dish Detergent □

General Appearance: Clear Liquid

Colour: Redish/Clear

Odour: Slight Chemical

pH: 12 -13
