

# TECHNICAL DATA SHEET

---

**Product Name: Rinse Aid LT/HT**

**Item Number: H197**

**Description:** Rinse Aid is a concentrated drying agent for dish machines. It eliminates the surface tension of rinse water, causing soap to rinse away and drain completely and very rapidly. Rinse Aid is very effective with hard water. This product prevents streaking & water spotting even in the hardest water. Rinse Aid is non-corrosive to machines. It is harmless to hands, dishes, glasses, utensils & more. Rinse Aid is very effective where a non-sudsing wetting agent is required.

**Directions:**

**Dish Washing Machine Use:** Set rinse additive dispenser to dispense 1 part RINSE AID to 750 parts water.

**Hand Rinsing:** Add 1 oz. RINSE AID per 5 gallons of rinse water used.

**CAUTION:**

KEEP OUT OF REACH OF CHILDREN.

**Product Specifications:**

Classification: Liquid Surfactant

General Appearance: Blue Liquid

Colour: Blue

Odour:
