

## TECHNICAL DATA SHEET

---

**Product Name:** Pot 'n Pan Cleaner

**Item Number:** H198

**Description:** POT 'N PAN Cleaner has been compounded for heavy-duty pot and pan washing as well as lighter jobs. This detergent reduces spotting and streaking by keeping magnesium and calcium in suspension. It eliminates the need for drying when hot water is used. POT 'N PAN Cleaner dissolves grease and grime more readily than other types of compounds. It penetrates through grease, emulsifying and lifting it from the surface with an abundance of speed, yet without hurting even sensitive hands. It may be used in hard or soft, hot or cold water.

**Directions:** For heavy duty cleaning of pots and pans, use 1-2 ounces of POT 'N PAN for each gallon of water. Let hard to clean articles soak for a few minutes, then wash and rinse. For ordinary jobs, reduce the amount of detergent used, and no soaking will be necessary. Wash and rinse in the usual manner.

**CAUTION:** Do not ingest. If this should occur, drink large volumes of water and seek medical attention. Avoid storage of product in freezing temperatures. Keep container sealed when not in use to prevent contamination. Rinse empty container before discarding in an authorized landfill site. KEEP OUT OF REACH OF CHILDREN.

**Spill Or Leakage Procedures:** Being biodegradable, the detergent emptied into sewers and drains can be attacked by bacteria and broken down into harmless compounds which do not contaminate or affect water or soil.

### Product Specifications:

Colour:	Clear
Odour:	Soapy
Viscosity:	Liquid
pH:	7.0-8.0
Flash Point:	None
Shelf Life:	One year in a sealed container
