

TECHNICAL DATA SHEET

Product Name: OCS - Odour Counteractant Synergist

Item Number: H231

Description: A heavy duty industrial liquid deodorant and odor counteractant that neutralizes sulphur and nitrogen based chemical odors, the source of most noxious odors. Excellent for use in sewage plants, feed lots, rendering plants, pig and chicken farms, etc. May be diluted up to 1:30 with water for adding to drain lines, garbage disposals, trash cans, refuse containers, etc. Leaves a pleasant fragrance. This water soluble product is non-staining and can be used for most odor problems.

Directions: General Deodorizing: Dilute 1:10 with water. Apply with mop, sponge, sprayer or by immersing small articles. If possible, allow surface to dry without rinsing for maximum deodorizing action. Sewage Treatment Plants: Allow product to drip into incoming waste water at the rate of 1 drop every 5 seconds. If odor still persists after 4 hours, increase dosage to 1 drop every 2 seconds. After odor is eliminated, cut back to 1 drop every 8 seconds. To remove odors around plant and grounds, dilute 1 part product with 10 parts water and spray concrete walls above the water line, walkways, ramps, grounds, etc. Cattle Pens and Stockyards: Spray ground and areas where odor persists with a solution of 1 part deodorant to 10 parts water. Initial treatment may have to be twice daily until odor is eliminated. Follow with treatment every other day to maintain odor free atmosphere. Cover all food and water before spraying. Remove cattle from area being treated.

WARNING: Eye irritant. Contains quaternary ammonium compound. Avoid contact with eyes. If eye contact occurs, flush with water for 15 minutes. Consult a physician. Do not ingest. If this should occur, drink large volumes of water and seek medical attention. Keep container sealed when not in use to prevent contamination. **KEEP OUT OF REACH OF CHILDREN.** **Container Disposal:** Triple rinse container with water and dispose in an authorized landfill.

Spill Or Leakage Procedures: Contain spill. Keep out of sewers & open bodies of water. Soak up spill in inert absorbent material. Place in leak-proof containers. Seal & label properly for disposal.

Product Specifications:

Colour:	Green
Odour:	Lemon
Appearance:	Clear
pH:	6-8
Flash Point:	Non Flammable
