

TECHNICAL DATA SHEET

ECOZYME

Hard Surface Cleaner

The Next Generation in Cleaning Products

ECOZYME Hard Surface Cleaner is a proprietary blend of bacterial spores, concentrated biodegradable surfactants and bio-stimulating agents. The components in *ECOZYME Hard Surface Cleaner* are listed on the Canadian Domestic Substances List (DSL).

ECOZYME Hard Surface Cleaner is quick acting and effective in removing surface stains resulting from spilled petroleum products on concrete, asphalt, rock and soil. *ECOZYME Hard Surface Cleaner* shortens clean-up times, increases contaminant bioavailability and initiates biodegradation.

Features:

- Inoculates contaminations with bacteria.
- Cleans surfaces of oil spills and stains.
- Cleans oily equipment, vehicles and tools.
- Contains no petroleum distillates or solvents.
- Contains essential microbial nutrients.
- Enhances biodegradation above and below ground surface when used as recommended.
- No removal or replacement of contaminated materials is necessary.

Product Characteristics

Cell Count	7.6 billion/gallon
pH	10.4-10.7
Percent volatile	0
Solubility in water	99%
Boiling Point	>100°C
Flash Point	Non-flammable
Appearance	Cream to white liquid
Odour	Floral perfumed

Directions for Use

ECOZYME Hard Surface Cleaner can be diluted between 1:2 for heavier loads and stains, down to 1:4 for lighter applications.

Hard Surface Cleaning - concrete, asphalt:
Dampen the contaminated surface, apply *ECOZYME Hard Surface Cleaner* and allow it to work for 20-30 minutes. Keep the worksite damp during treatment and repeat as necessary.

Porous Surface Cleaning - soils:
Scrape surface, dampen and apply product. Scrape the surface again and rinse.

Recommended Application Equipment:
ECOZYME Hard Surface Cleaner cleans petroleum based materials from nearly all surfaces regardless of the application.

General Equipment Cleaning:
Do not pre-wet surfaces or use in direct sunlight on painted surfaces. A 3:1 dilution is recommended for most applications with a maximum recommended dilution of 5:1.

Pressure Washing/Degreasing:
Pressure blast heavy materials. Spray surface with a 50/50 solution and pressure wash again from bottom up. Do not allow surfaces to dry.

Storage and Handling
Store in a cool dry place. Avoid excessive inhalation. Wash hands thoroughly with warm, soapy water after handling. Avoid eye contact. Wear protective clothing (rubber gloves, eye protection, etc.). Pre-test new equipment finishes by applying to a small area first in the shade. Best results are seen when applied to damp concrete surfaces

Available Packaging 4L Pail
20L pail
204L drum
