

TECHNICAL DATA SHEET

ECOZYME

Floor Cleaner & Degreaser *The Next Generation in Floor Care Products*

ECOZYME Floor Cleaner & Degreaser is the next generation in floor care products. It provides effective immediate cleaning plus the enhanced cleaning and biodegradation action of microbes.

ECOZYME Floor Cleaner & Degreaser incorporates a proprietary microbial consortium that provides technologically advanced cleaning by penetrating porous floor surfaces to degrade and eliminate grease and other organic materials that accumulate over time. The synergistic mix of microbes and chemistry in Floor Cleaner and Degreaser works in two ways:

- *the chemistry provides immediate cleaning, comparable to industrial strength floor cleaners*
- *the microbes provide long-term deep cleaning by removing embedded residual organics left in pores, cracks, corners and crevices*

Product Characteristics

Bacteria Specifications	5.4 x 10 ⁷ cfu/ml
Bacteria Type	Blend of <i>Bacillus</i> spores
Salmonella/Shigella	Not detected
pH Range	7.5-8.5
Appearance	No colour added
Fragrance	No fragrance added
Stability	2 years at 35° - 95° F (2° - 35° C)

ECOZYME Floor Cleaner & Degreaser is an environmentally friendly formula specifically designed for the cleaning of tile flooring and grout in household, institutional and industrial settings. The components of *ECOZYME Floor Cleaner and Degreaser* are listed on the Canadian Domestic Substances List (DSL).

Benefits

- Cleans floors*
- Cleans grout*
- Reduces slippage by removing grease*
- Controls odours*
- Reduces conditions that invite and harbor pests*

Available Packaging

- 4L pail
- 20L pail
- 204L pail

Storage and Handling

Store in a cool dry place. Avoid eye and skin contact. Wash hands thoroughly with warm, soapy water after handling product.
