

TECHNICAL DATA SHEET

Product Name: Tank Saver

Item Number: H691

Description: Tank Saver inhibits rust and corrosion formation in all metal water tanks. Designed for fire departments, utility, industrial and municipal storage tanks, laundry and hotel water storage systems, and emergency water supply facilities. Tank Saver forms a thin protective film on all exposed metal surfaces. It is odorless, and tasteless and protects all metals including iron, steel, galvanized, brass, bronze, copper and alloys.

Directions: In fire trucks tanks, emergency storage tanks, back pack sprayers and holding tanks, add 1 gallon of Tank Saver for each 1000 gallons of water. Treat with Tank Saver every time tank is filled. In flowing systems, inject or meter 3 gallons of Tank Saver per 10,000 gallons of water. After a 6-8 week initial treatment period, decrease the feed rate to 1 gallon per 10,000.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

May cause irritation to eyes and skin. Wear suitable protective equipment. For skin and eye contact, wash skin and eyes with water. If swallowed drink plenty of water. In all cases obtain medical attention.
