

TECHNICAL DATA SHEET

Product Name: Aluminum Cleaner #2

Item Number: H780

Description: This product is designed for rapid and effortless cleaning and removal of aluminum oxides, road film, diesel smoke residues and other dulling films from aluminum truck trailers and bodies. This aluminum cleaner is formulated with wetting agents, penetrants, heavy-duty emulsifiers, and a blend of inorganic acids. Rinse agents provide a "sheeting" action for film free rinsing. No need to polish or buff surface. Cleaned surfaces dry streak free. This cleaner is economical to use since product is dilutable with water up to 1 part product to 35 parts water. Rapid action, normal cleaning and brightening operations will require only three to five minutes. Some heavy accumulations of oxidation may require some light mechanical agitation with a long handled brush. Note: Do not use on magnesium alloy wheels or mirror-like aluminum surfaces.

Where to Use: Fleet maintenance services, truck fleet rental services, delivery companies, equipment rental and service firms, machine shops, siding contractors, boat dealers, aluminum extruders and similar facilities.

Directions: Dilute concentrate with 35 parts water to one part concentrate. To avoid corrosion, mix solution in a plastic pail or other suitable container. Apply solution to surface to be cleaned with brush or sprayer, working in small sections from the bottom upward to avoid streaking. Allow solution to remain on surface for 3 to 5 minutes. Do not allow surface to dry out during application. Agitate surface with a long handle brush to remove heavy soils, then rinse with clear water. Make certain that all traces of solution are rinsed away. Avoid contact with glass or porcelain surfaces as product will etch. If contact should occur, rinse immediately with water.

DANGER: Contains Ammonium Bifluoride. Corrosive. Causes severe burns which may not be immediately painful or visible. Avoid contact with eyes, skin or clothing. Wear safety glasses or face shield, PVC gloves, and long sleeved clothing when handling. If eye contact occurs, flush (including under lids) with water for at least 30 minutes. Get immediate medical attention. In case of skin contact, flush with cold water for at least 15 minutes. Use alkaline soap. If irritation persists get medical attention. Discard contaminated clothing. May be fatal if swallowed or inhaled. Do not take internally. If swallowed, do not induce vomiting. Give large quantities of water. Call a physician immediately. Avoid inhalation of fumes. If inhaled, remove victim to fresh air. If breathing is difficult, give oxygen. Call a physician. Do not re-use container. Keep container sealed when not in use.

KEEP OUT OF THE REACH OF CHILDREN.

Container Disposal: Rinse empty container before disposal in authorized landfill site.

Spill Or Leakage Procedures: Contain spill. Do not contaminate sewers, ground or surface waters.

Neutralize with soda ash or lime. Soak up in inert absorbent. Place in properly labeled, sealed, non-leaking containers.

Product Specifications:

Color: Color less

Odour: Glycol Ether

Appearance: Slightly Turbid

Flash Point: None

Shelf Life: One year in a sealed container
