

TECHNICAL DATA SHEET

Product Name: Wash & Shine, Neutral Cleaner

Item Number: H802

Description: Wash & Shine is a high performance, all around neutral pH cleaner for floor care applications. With a dilution rate of up to 1:128 with water, the formula is economical and also works well with dilution control systems. However, this product is not just any neutral cleaner. This special environmentally sensitive product is formulated with no phosphates or butyl solvents. The advanced surfactant technology is biodegradable and excellent for breaking up and dispersing even stubborn grease, dirt, and oil deposits from flooring surfaces either by hand or through automatic scrubbing machines. The pleasant fresh scent makes it easy to work with and around.

Directions: Wash and Shine may be used as a mop or sponge on floor cleaner, a general purpose cleaner, or as an automatic floor machine cleaner. General use requires only one ounce per gallon of water for most mopping/cleaning routines. With automatic machinery, always follow manufacturers directions for use. Product may used in proportion devices set up to 1:128 dilution. Always sweep up loose soil and material prior to use. Air dry or fan dry if desired. Light Duty Cleaning: Use 1 ounce per gallon of water. Medium Duty Cleaning: Use 2-4 ounces per gallon of water. Mop, sponge or spray on. Heavy Duty Cleaning: Use 6-8 ounces per gallon of water. Allow 5-10 minutes contact time and agitate or scrub as necessary.

CAUTION: Do not ingest. If this should occur, drink large volumes of water and seek medical attention. Keep container sealed when not in use to prevent contamination. KEEP OUT OF REACH OF CHILDREN.

Container Disposal: Triple rinse container and discard according to local regulations.

Product Specifications:

Classification: Neutral Cleaner

General Appearance: Liquid

Colour: Clear

Odor: Fresh & Clean

pH: 7.0-8.0

Flash Point: None
