

## TECHNICAL DATA SHEET

---

**Product Name: Sani 12**

**Item Number: NL512**

**Description:** An industrial grade bleach. Sani 12% is used in commercial glass washers and dish machines to sanitize and destain dishes, plates and cutlery.

**Directions:** See your technical sales representative for detailed usage information when using automatic dispensing pumps.

For Manual Destaining: Add 2ml per litre of water, to obtain 225 ppm of chlorine. Replenish the solution at regular intervals, as chlorine dissipates fairly quickly. Use test paper for precise measurement.

For Destaining: Add 10ml per litre of water. Immerse the articles to be destained for 15 minutes. Rinse well with clear water.

**CAUTION:** KEEP OUT OF REACH OF CHILDREN. DO NOT MIX WITH ACIDS OR ANY OTHER CHEMICAL. USE RUBBER GLOVES AND DO NOT SPILL ON CLOTHES OR SKIN. Causes burns. Becomes unstable at elevated temperatures. Avoid excessive heat and exposure to light. Avoid skin and eye contact. Avoid breathing vapour. Use with adequate ventilation. Avoid prolonged storage.

If inhaled remove victim to fresh air. If breathing stops begin artificial respiration. Call physician. For skin and eye contact, flush with water for 15 minutes, while removing contaminated clothing. If ingested DO NOT induce vomiting. Give water or milk. DO NOT give baking soda or acid antidotes. Never give anything by mouth if victim is unconscious. Obtain medical attention immediately.

**Spill Or Leakage Procedures:**
